

## INTERNET SERVICES GENERAL INFORMATION

The network connection provided by Sands Event Services may be used only by the contracted corporation, its directors, officers, and employees, or guests when performing service for the company. **This service cannot be resold or distributed to any other company.** Users of the Sands Event Services network will put forth every effort to avoid unnecessary network traffic and interference with the usage of others. Users of the network shall not transmit any communication which violates any local law or regulation or is likely to offend other users on the network. All devices on the Sands Event Services network will be charged an access fee in the form of an additional IP address or a network package.

Sands Event Services makes no guarantee of the performance, routing, or throughput of any data circuit connected to the Internet outside the facility's own backbone. Please call +65 6688 3888 for assistance in planning your network.

Sands Event Services requires all devices using the network to be protected by updated virus software, Windows security updates, and any other technological precautions deemed necessary to protect yourself and other users from viruses, malicious programs, pop-ups, pop under, and other disruptive applications.

Any device which adversely impacts the Sands Event Services network will result in service interruption with or without prior notice to the user at the discretion of Sands Event Services. The device in question will remain disconnected until Sands Event Services personnel deem that all issues have been resolved. No discount or refund will be issued in these circumstances. Additional fee for problem diagnosis and resolution will apply.

### LIMITATIONS

VPN (Virtual Private Networks) may not work at lower-speed connections. VPN should work with dedicated Ethernet line, which is not behind a firewall and will require protection on the devices being connected to it. Sands Event Services does not support VPN software or VPN concentrator issues and does not guarantee its success.

Labour includes configuration of devices and any changes made to Sands Event Services equipment to enhance the exhibitor's network, running cable, tipping cable, or observing as the exhibitor makes changes to his own devices. No drivers or software will be loaded onto an exhibitor's device, and no hardware changes will be made to an exhibitor's device by a Sands Event Services Internet technician. If a hub is rented, it may be picked up at the service desk. Sands Event Services Internet will not deliver the hub to your booth. It is the customer's responsibility to be familiar with and understand their equipment if they chose to bring their own hub or switch. Technical assistance beyond the initial installation will be charged a labour rate. No refunds will be given if technical problems were encountered due to the use of customer-provided equipment, or customer's own computer settings in general.

Due to the unpredictable nature of the World Wide Web, Sands Event Services does not warrant that the services provided will meet the user's requirements or that the user's access to and use of the services will be uninterrupted. Sands Event Services cannot and does not guarantee the privacy, security, authenticity, or non-corruption of any information transmitted through the system from the Internet. If a situation occurs involving non-performance of services furnished by Sands Event Services, user's sole remedy shall be a refund of a pro-rata portion of the price paid for services which were not provided. No credit will be issued for periods of lost service for duration of less than eight hours.
